Készítés és tervezés
vagy a szerelési gyémántok? Minden
specifikációkhoz először mindig nézzék meg
adatait / Pleaz check first all the H360FD's specific
parameters before any soldering operation, and if
possible, always check against the safe RDT standard, which has also
become easier, thanks to the specific soldering conditions, even in
difficult situations. Production is performed in the best possible
conditions, with the use of modern equipment, with the use of
materials, and the use of the most modern technology.

Használat előtt mindig nézzék meg adatait / Always check
the data before using the product / Always check the data
before using the product. The data is always available in the
best possible conditions, with the use of modern equipment,
with the use of the most modern technology.
